

AWARD WINNERS 2003

Abstract Competition SARB Congress

Experimental investigations.

Repeated perineural injections of α 2-adrenergic agonist clonidine delays the development of hypersensitivity after nerve injury by decreasing local TNF- α release
P. Lavand'homme, J.C. Eisenach, UCL

Best resident abstract.

Evaluation of a new, ultra-fast response, continuous cardiac output monitor
H. Alex Leather, Christophe Bert, Willy-Serge M'Fam, Eugène Vandermeersch, Paul Sergeant and Patrick Wouters, KUL

Best Publication

Clinical

Effects of Propofol, Desflurane, and Sevoflurane on Recovery of Myocardial Function after Coronary Surgery in Elderly High-risk Patients
Stefan G. De Hert, Stefanie Cromheecke, Pieter W. ten Broecke, Els Mertens, Philippe J. Van der Linden, UZA

Experimental

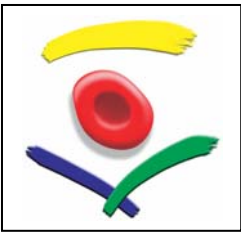

Tolerance to Acute Isovolemic Hemodilution: Effect of Anesthetic Depth
Philippe Van der Linden, Stefan De Hert, Nathalie Mathieu, Françoise Degroote, Denis Schmartz, Haibo Zhang, Jean-Louis Vincent
CHU Brugmann – Huderf - ULB

B.Braun Award

Spinal Mechanisms Contribute to Analgesia Produced by Epidural Sufentanil Combined with Bupivacaine for Postoperative Analgesia.
Jean L. Joris, Eric A. Jacob, Daniel I. Sessler, Jean-François J. Deleuse, Abdourahamane Kaba and Maurice L. Lamy - ULg

Organon Award

Residual Neuromuscular Block after an Intubation dose of Cisatracurium and Rocuronium in Lumbar Disc Surgery.
P. Hans, Ph. Welter, V. Bonhomme – ULg

GRANT AWARD WINNERS 2003

Clinical

Does remifentanil induce exacerbated postoperative hyperalgesia and persistent pain ?
Patricia Lavand'homme (UCL)

Experimental

Role of Interleukin-1 β in the organization and plasticity of spinal pain transmission in acute inflammatory conditions
Lin Shi (VUB)

Epidemiology

Molecular Genetic Detection of Susceptibility to Malignant Hyperthermia in Belgian Families
Luc Heytens (UA)
