

# Introduction

Dear Colleague,

On behalf of the Board of Directors of the SARB and the members of the Scientific and Organizing Committees, we are pleased to invite you to join the next meeting of the SARB, which will take place in Ostend, 24<sup>th</sup> November, 2007.

The 2007 theme is:

## "ANESTHESIA IMPROVING PATIENT OUTCOME"

For this meeting, an attractive programme has been designed. Lectures provided by internationally renowned as well as national experts will provide you with the latest information about the optimal management for anesthetized patients. This management is rapidly evolving due to recent social, medicolegal and economic changes. This has paramount implications for our practice.

Problem based learning discussions have been added to the program. Mandatory for the residents, these discussions are an ideal way for experienced anesthesiologists to share their knowledge with others and to improve their practice.

The venue of the 2007 SARB meeting will be the "Thermae Palace" in Ostend, a nice and convenient location.

Join us in Ostend and benefit from the exchange of ideas with international experts as well as Belgian colleagues while enjoying the city of Ostend, "Queen of the seaside resorts".

J.F. Brichant  
President

E. Vandermeersch  
Secretary

## Posters list

- C1** Is local anaesthesia for carotid endarterectomy feasible after short teaching procedure? A prospective evaluation. - *Patrice Forget*
- C2** Feasibility assessment of a sedation delivery system to administer propofol for GI endoscopy. - *Annelies Moerman*
- C3** Linearity of the abdominal pressure inflated volume relation in non ACS patients. - *Jan Paul Mulier*
- C4** Determinants of the abdominal pressure volume relation. - *Jan Paul Mulier*
- C5** Comparison of different positions of the safety frog™, a ventilator safety frog on the ventilator in case of technical failure. - *Jan Paul Mulier*
- C6** The effect of systolic arterial pressure on bleeding of the gastric stapling during laparoscopic gastric bypass surgery. - *Jan Paul Mulier*
- C7** Volume instead of pressure controlled abdominal insufflation in morbid obese patients. - *Jan Paul Mulier*
- C8** Abdominal pressure-volume relation in morbid obese patients. - *Jan Paul Mulier*
- C9** Easier intubation conditions for morbid obese patients using the inflatable intubation pillow (Safety bird). - *Jan Paul Mulier*
- C10** Etomidate and left ventricular systolic function: an echographic study. - *Laurent Perrin*
- C11** Changes of a Surgical Stress Index in response to standardized pain stimuli during propofol – remifentanil infusion. - *Caroline Vanpeteghem*
- C12** The effects of rocuronium and ketamine on bispectral index, A-Line auditory evoked potentials index and spectral entropy. - *Hugo Vereecke*
- C13** Meningitis following facet block injection. - *Sandra Brichant*
- C14** Reversal of pancuronium-induced block by the selective relaxant binding agent sugammadex. - *Mieke Decoopman*
- C15** Effects of lateral tilt on caval compression during pregnancy: an MRI study. - *Jerome Giwer*
- C16** Is there a place for ropivacaine in the prevention of propofol-induced pain? - *Quénaël Herail*
- C17** Preventing exacerbations of acute angioedema attack in a child with hereditary angioedema using short-term C1-inhibitor concentration. A case report. - *Nadia Najafi*
- C18** Improving postoperative outcome in children undergoing tonsillectomy. Is there any room for tramadol treatment at home in this setting? - *Nadia Najafi*
- C19** Nurse training and standardised pain management improve postoperative pain relief. - *Kristof Van Den Hauwe*
- C20** Hypotension during spinal anesthesia for Cesarean section: is delivery preferable in the afternoon rather than during the morning? - *Veronique Van Reeth*
- C21** Evaluation of the pressure characteristics of the new Kanmed warmcloud body warming device in healthy volunteers. - *Sophie Vanherpen*
- Laboratory posters
- L1** Evaluation of a mechanical build model of the abdominal pressure volume relation. - *Jan Paul Mulier*
- L2** Alterations of mitochondrial apoptotic pathways in load-induced right ventricular failure. - *Céline Dewachter*
- L3** Effect of anaesthesia on haemodynamic parameters and respiratory function in normal rats. - *Rinaldo Lauwers*
- L4** Influence of the anaesthetic on left ventricular volumes in rats assessed by echocardiography. - *Rinaldo Lauwers*
- L5** Effect of anaesthesia on contractility of different left ventricular regions in rat. - *Rinaldo Lauwers*
- L6** Thoracic Epidural Anesthesia and Right Ventricular Function during Acute Pulmonary Hypertension. - *Carlo Missant*
