Welcome

Dear Colleagues,

We are happy to welcome you to the 2017 SARB Meeting taking place at Square Meeting Centre in Brussels.

Each year, our Society succeeds in offering an attractive program during the Saturday Meeting. International experts travel to Belgium to share their knowledge and expertise. Looking at the number of anesthesiologists attending the meeting each year, this has proven to be a highly successful format for many years.

This of course is also the case for this year's edition: World renowned experts will focus on various technical innovations that will/might change your daily practice.

The Scientific Committee has introduced several new features into the format of this year's Meeting: The Meeting is extended to two days, workshops (on the difficult airway and on the use of ultrasound in anesthesia) are organized and an ethics program is presented.

We trust this new format meets with your approval and we wish you an instructive and stimulating SARB Annual Meeting.

Kind regards,

Marc Van de Velde, Patrick Wouters and Luc Foubert
SARB Officers
